

FERTILIZATION & PEST CONTROL

LAWN & SHRUBS

Fertilization

Proper fertilization is second only to adequate irrigation when it comes to the health of your landscape. A thick, lush, green lawn is not only beautiful, it is the best defense against the full spectrum of diseases, insects, and weeds. Our expert knowledge and experience can keep it looking its best year-round.

Pest Control

When combined with proper fertilization, a proactive pest control program is the best solution possible. Aggressively preventing major infestations will keep your landscape looking its best. Our Integrated Pest Management Professionals can help maximize the beauty, health, and lifespan of your trees, shrubs, and turf.

What Makes Us Different?

- Customized Programs
- Preventative Weed Treatments
- Soil PH Testing
- Complimentary Retreats
- Specialized Disease & Fungus Treatments

TREE & ARBOR CARE

Palms, Oaks, and ornamental trees can be major investments on your property and replacing them may not be an option. We specialize in treating large palms and trees by direct injection. Not being subject to Florida's spontaneous rainfall, direct injection treats the problem at its core. It delivers exactly what they need to ensure proper health and vigor.

- Effective
- Long Lasting
- Fast Acting
- Environmentally Responsible
- Eliminate the Need For Tree Spraying

INDOOR PEST CONTROL

We focus our aggressive applications on the structure's exterior and stop them before they get inside. This eliminates the pest's lifecycle and allows for a frontline defense before treating inside any building or structure. Our solutions are customized to fit every individual situation and need.

- Complimentary Retreats
- Effective and Efficient
- Cob Removal Around Eaves & Windows
